

REMARKS

Applicants respectfully request reconsideration of this application as amended. Claims 1-30 have been deleted, and claims 31-60 have been added. Therefore, claims 31-60 are presented for examination.

The cancellation of claims made by this Response are not made for the purpose of patentably distinguishing the claimed inventive subject matter over the prior art, nor should they be construed as surrendering any subject matter contained therein. Instead, the addition of claims are made to further clarify the claimed inventive subject matter over previously examined and/or allowed claims. None of the new claims added by this Response add new subject matter, and all of the new claims added by this Response are fully supported by the originally filed application.

Conclusion

The Examiner is invited to initiate an interview with the undersigned by calling 949-498-0601 if the Examiner believes that such an interview will advance prosecution of this application.
